

BIG EXCURSION ON THE RIO GRANDE.

Twenty-two Carloads of Humanity Hauled into Salt Lake Today.

RECORD FOR JORDAN STAKE.

Over Fourteen Hundred Souls Transported Out to Lagoon Today for Annual Outing.

There have been big excursions in Utah in the past but the one operated this morning by the Rio Grande Western comes near capturing the blue ribbon. The occasion was the annual outing of the Jordan stake which this year takes place at Lagoon.

General Agent Benton of the passenger department figured that 20 cars would be ample to handle the crowd. However when the train reached Salt Lake there were 22 carloads of humanity on it, and people standing in the cars at that. In all the train carried 1,482 souls.

Mr. Benton and his chief clerk, Mr. Hunsberger, together with Traveling Passenger Agent Frank Groesbeck, went down the line. The first named went on to Riverton and the other two dropped off at Bingham Junction to help sell the tickets. So big was the rush that over 500 tickets were sold on the train and all the railroad employes were pressed into service to take up the tickets and assist the conductor. The train was transferred to the Salt Lake & Ogden tracks at North Salt Lake and ran slowly from that point into Lagoon.

J. M. HERBERT IN LUCK.

Former Manager of D. & R. G. Strikes It Rich in Nevada. If current reports are true, J. M. Herbert, formerly manager of the D. & R. G. now vice president of the Colorado & Southern, is on the road to wealth. Some time ago he invested in a prospect hole in the new Nevada gold fields. It is now said that this property has turned up trumps. Mr. Herbert quickly passed through the Nevada on Tuesday en route from Reno to Nevada, where he goes to look into the proposition and incidentally to take a couple of weeks' vacation.

WESTERN PACIFIC.

Wm. Glasemann Editorially Dashes the Hopes of Salt Lake. William Glasemann in the Ogden Standard editorially dashes the hopes of Salt Lake regarding the Western Pacific in the following brutal manner: "The Salt Lake papers are assuring their readers that the Western Pacific railroad is to be built out of Salt Lake City, and they quote a gentleman who has just returned from the east as authority. Then, as though to disregard their previous assurance, they quote a high official on the Gould roads saying there is great secrecy maintained, and only Gould knows what is actually to be done."

"The truth is the plans of the Western Pacific have undergone a radical change within the last few weeks, and, as announced exclusively in this paper, what contracts are to be let for construction is out of Salt Lake Nevada mountains, eliminating Salt Lake City from all immediate consideration."

"The uncertainty as to the eastern terminal has aroused hope that Ogden is being favorably considered, and the decision, if based on feasibility of route, will be in favor of paralleling the Ogden-Larkin cut-off. There are broad hints that Ogden stands an excellent prospect of getting the road, but a rumor that is fast crystallizing into fact seems to point to the Western Pacific gaining through the southern part of Utah and connecting with the Denver & Rio Grande over the Salina canyon cut-off. But should the Western Pacific take that route, then Ogden can look for an extension of the Gould road north into Idaho."

WRECK AVERTED.

Catalina Flyer on Salt Lake Route Has Narrow Escape. Los Angeles, July 12.—A wreck of the Catalina flyer of the Salt Lake road, west bound from San Pedro to this city was narrowly averted at Hobart station this evening by the use of a derailing switch. The locomotive of the train, the baggage car and the front trucks of one coach took the derailing switch and left the track. No one was injured and the property loss was small. The derailing was caused by a Santa Fe freight train from San Diego standing across the Salt Lake tracks and the flyer failed to take the air in time to stop. The towerman, seeing a collision was imminent, threw the derailing switch and the passenger train moving with moderate speed, ran off the rails.

HARRIMAN'S TRIP.

Big Railroad Magnate Will Probably Visit Asia. E. H. Harriman is soon to make a long trip to the orient, and while it has been given out that he is going to Asia for recreation, it is generally believed in Wall street that important business matters will be undertaken by him during his stay in Japan. Mr. Harriman believes that Japan, after the close of the present war, will enter upon a marvelous period of business and commercial development. As the trade with such a country will be of great importance to the transcontinental railroads, it is thought that Mr. Harriman is going abroad with a view of forming some important traffic alliances.

PRICE OF SUGAR FALLS.

A Reduction of Twenty Cents Per 100 in This Field. San Francisco, July 13.—A reduction of 20 cents per hundred in all grades of sugar has been announced. The cut is attributed to the weakness of the raw sugar market, the price of that article having recently dropped very materially. The decline in raw sugar has been in a measure caused by the excellent prospects in Europe for a large increase in the beet sugar output, and the crop, which forms a little more than one-half of the world's output, will come into the market in August.

In local sugar circles it is stated that the drop of 20 cents per hundred went into effect in Utah, Idaho, and Montana last night. The reduction, however, cuts but little figure with the local factories for the reason that they are only about fifty days away from the first of the new crop, so that naturally the supply on hand is quite low.

The State Chemist, Herman Harms, Ph. G.

BAKING POWDER. "I have purchased in the open market, a can of your 'Three Crown Baking Powder' and submitted same to a careful chemical analysis. Have found the powder to be a 'PURE CREAM OF TARTAR BAKING POWDER,' absolutely free from Alum, Lime, Ammonia, or other foreign admixtures. All of the ingredients are of the purest quality obtainable and combined in proportions to make the powder of exceptional high 'leavening' strength. Respectfully, HERMAN HARMS, Your grocer sells 'Three Crown.' Hewlett Bros. Co."

All local factories have been fortunate this year in securing the high prices which have been in vogue for the last nine months, during which time they have had plenty of the refined article to sell.

Supreme Court Upholds Judgment Of Lower Court in Case of Hern vs Southern Pacific.

HURT WHILE ON COAL PLATFORM.

Defendant Contended He Was a Loiterer And Had No Business on Company's Property.

The supreme court today affirmed the judgment of the lower court in the case of Neal Hern, appellant, vs the Southern Pacific company, the Ogden & Lucien Railroad company and George Bookham. The action was brought to recover damages for personal injuries alleged to have been received by plaintiff at Hog-up, Boxelder county on Nov. 8, 1903. It was alleged that plaintiff was on the coal platform at Hog-up, when an engine which was left unattended and unblocked, bumped into the platform and knocked it over, throwing plaintiff off into a fire nearby and severely injuring him.

The jury in the court below found the issues in favor of defendant, and this judgment is affirmed by the supreme court. It appears that Hern had been working for the company, but had quit two days before the accident. At the time he was injured he claimed that he was waiting for a train and that he had been unable to get one for two days. He contended that he was rightfully upon said premises of the defendants as a prospective passenger, and hence was entitled to due care and protection from accident. The case was dismissed as to the two last named defendants. The Southern Pacific company contended that Hern was a loiterer and a trespasser upon its property and hence had no right to hold the company liable for the accident. It showed that there were six trains carrying passengers between Hog-up and Lakeview during the two days he said he was trying to get away from his place, and he could have left on any of them. The contention of the company was sustained by the lower court, and is now sustained by the supreme court, hence the judgment in favor of defendant is affirmed. The opinion of the court was written by Justice Stuart and concurred in by Chief Justice Barlow and Justice McCarty.

BENNETT SENTENCED.

Pleads guilty to Immoral Conduct and Gets Two Years.

Joe Bennett, whose true name is Henry Jacobs, today appeared before Judge Armstrong in the criminal division of the district court and pleaded guilty to a serious charge. He waived time for sentence and was ordered confined in the state prison at hard labor for a term of two years. The crime was committed on March 23, 1905. The woman in the case is Honor Kelly.

The court denied the motion for a new trial in the case of the State of Utah vs George Williams, convicted of grand larceny and sentenced to a term in the state prison. The court ordered the sheriff to deliver Williams without further delay to the warden of the prison.

HERE FOR BUSINESS.

Salt Lake Attracts Auto Men from The East.

The fact that Salt Lake owns only about 140 automobiles, and that most cities of this size own over 600 of the machines, together with the fact that sales are unusually heavy, is attracting automobile manufacturers and salesmen. L. C. Bondy, a wealthy car owner of Denver, who is at present suffering from a bad attack of "automobiles," and P. P. Platt, a representative of a large automobile supply house at Chicago, are in Salt Lake. Their idea in coming here is that this is a growing automobile market, and their intention is to establish a garage and supply house of the most modern and fully equipped nature, provided the situation looks as favorable after close study as it does upon first sight.

The garage establishments already doing business in Salt Lake are finding their quarters in need of expansion. At the Utah company it has been necessary to rent the upstairs floors to the Market street building and put in an elevator to accommodate the demand

AMUSEMENTS.

Pain's stupendous Videummer-night spectacle "Last Days of Pompeii," has been secured for the week of July 24, at Walker's Field. The huge pyrotechnic and spectacular exhibition is totally unlike any other traveling amusement enterprise on earth; in fact, there is even no permanent attraction either in Europe or America that rivals it in magnitude or interesting features. A more fascinating form of popular summer night amusement cannot be imagined. The organization presenting this big exhibition numbers nearly 400 people, travels in its own special train, carries a mammoth portable amphitheater with a seating capacity of 10,000 people, with its own stage, electric light plant, etc. The occasion will be a rare opportunity for residents of the smaller surrounding towns to witness an exhibition such as is usually provided only for the largest metropolitan cities.

PECULIAR PETITION.

Elvira Olson Wants Guardian Appointed for Unborn Child.

A rather unusual petition was filed in the probate division of the district court today by Elvira B. Olson, who asks that a guardian be appointed for her unborn child. This is the second petition of this kind ever filed in the history of the probate court in this county. The petition recites that the father of Elvira C. Olson, another child of the petitioner, died on April 11, 1905, and that said minor, together with the petitioner, are the owners of certain real estate in this city valued at \$200 and \$2500 to each now held by the clerk of the district court as payment of a judgment against the Rio Grande Railway company for the death of Mr. Olson.

BIG BUSINESS BLOCK.

Ground Being Cleared for Three-Story Structure on West Temple.

Work has begun clearing the ground for a business block to be erected on the northeast corner of West Temple and Market streets. It will be three stories high, and with a frontage on West Temple street of 74 feet, and 320 feet on Market. The builders are O. J. Salisbury and the Houston Real Estate investing company, and the cost of the structure when entirely completed will be about \$100,000. Only part of it will be erected at present, however, viz, 110 feet on Market street, and contain six business apartments on the ground floor, with the two upper floors utilized for lodging purposes. Holt & Sons have the excavation contract, and R. Kletting is the architect.
